RECOMMENDATION FOR ABDULAYE GUINDO (GUIDE
FOR DOGON, DJENNE, TOMBOUCTOU.
TO whom it may concern,

I went (with two other Dutch tourists) on a 3 day tour to Dogon country. We hired Abdoulaye Guindo as a guide and we are happy we did. He is an experienced guide, born in ~~By~~abatalou, one of the villages along the escarpment. Therefore, he speaks the language, knows a lot of people in the villages we visited. He has no ~~pro~~ problems arranging things like tours on the escarpment. But above all he is a very pleasant man, who really takes care of you. He is genuinely interested in teaching you about Dogon culture and is very aware of different needs and interests of different tourist. He sticks to his contract, and really tries to save you money by bargaining for you. He cooks excellent and doesn't cut down on the food. Not even once he asked for extra money, • I can guarantee you will have an excellent time with him!
